Lab 01 – Getting Started

Task 01:

Create a new java project on NetBeans named as "First_Exercise". Display a text message saying, "this is my first program". Provide multiline document string for the created program explaining the process in the program

Code:

```java
package Tasks;

/*
    - this is my first task of lab 01
    - first lab od second semester
    - this lab is about getting started with netbeans
 */

public class task01 {
    public static void main(String[] args) {

        System.out.println("This is my first program.");
    }
}
```

Output:

```
"C:\Program Files\Java\jdk-24\bin\java.exe" "-javaagent:C:\Program Files\Jet
This is my first program.

Process finished with exit code 0
```
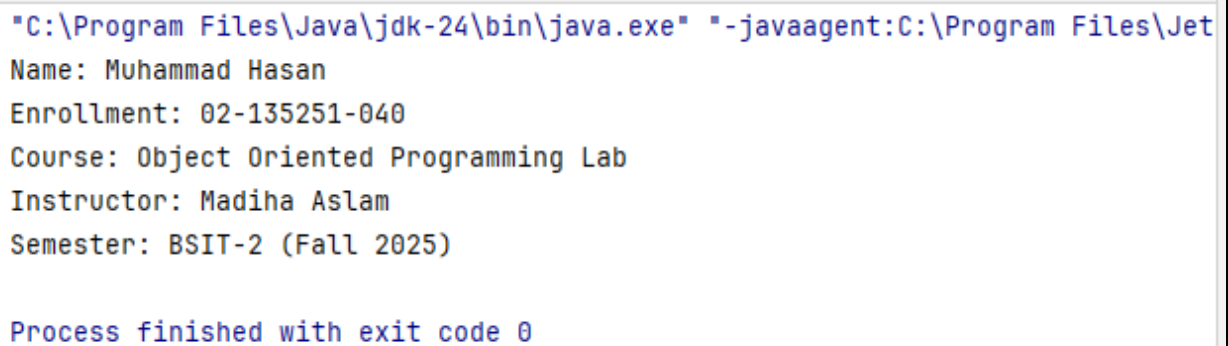

Task 02:
Create a java program named "Second_Exercise". Print the name, enrollment, Subject name, Instructor name and semester of a student and attach proper output screenshot. Provide proper comments.

Code:

```java
package Tasks;

public class task02 {

    public static void main(String[] args) {
        System.out.println("Name: Muhammad Hasan");
        System.out.println("Enrollment: 02-135251-040");
        System.out.println("Course: Object Oriented Programming Lab");
        System.out.println("Instructor: Madiha Aslam");
        System.out.println("Semester: BSIT-2 (Fall 2025)");
    }
}
```

Output:

```
"C:\Program Files\Java\jdk-24\bin\java.exe" "-javaagent:C:\Program Files\Jet
Name: Muhammad Hasan
Enrollment: 02-135251-040
Course: Object Oriented Programming Lab
Instructor: Madiha Aslam
Semester: BSIT-2 (Fall 2025)

Process finished with exit code 0
```
